

MdP2020 : les 10 projets soutenus dans le cadre des Activités Nationales Complémentaires pour le spatial sont :

PROJETS	PARTENAIRES
1. Remedies for Incorporation of Additive Manufacturing and In-Situ Resource Utilization (AMISRU)	EPFL & Valsigna
2. Additive NiTi Application for Space Technologies	CSEM & Almatech RHP Technology
3. Nematic 3D Printing of Structures for Space Applications	ETHZ & NematX
4. Enhanced Data Cube Visualisation for Earth Observation	HE-ARC & Solenix
5. Machine learning modelling of multi-modal remote sensing data	SUPSI & SARMAP
6. Embedded Flight Software Verification	EPFL & Ateleris
7. Secure and Reliable In-Orbit Reconfiguration	HEPIA & Cysec
8. Cost effective hermetically sealed chip fuse	CSEM & Schurter
9. Decentralized Components Certificate Tracking System	FHNW & Micos
10. Satellite-based Inspection of Large Vegetated Areas	WSL, ETHZ & Exolabs
